Dear [REDACTED]

Thank you for your email 23 April 2019 (Ref. [Ares\(2019\)2792382](#)) regarding permission for the use of the EU Organic logo in a publication by the University of Bonn.

The use of the EU organic logo in the labelling, presentation and advertising of products, which are placed on the EU market as organic, is regulated by Council Regulation (EC) No 834/2007<sup>1</sup>. However, the use of the logo in a context other than those described above is not specifically regulated by this Regulation, but is subject to general rules on consumer protection and on the use of registered trademarks.

The use of the logo for information/educational purposes related to the existence of the scheme or the logo itself is in principle possible, as long as its use is not misleading and the logo is reproduced in a correct manner and in accordance with the rules set out in the user manual. This manual can be found on the following webpage and includes downloadable high resolution print versions: [https://ec.europa.eu/info/food-farming-fisheries/farming/organic-farming/organics-glance/organic-logo\\_en](https://ec.europa.eu/info/food-farming-fisheries/farming/organic-farming/organics-glance/organic-logo_en)

If the above-mentioned terms of use are respected, the use of the EU organic logo for educational purposes as indicated in your email can be authorised.

In addition, kindly note that all the content of the website ([https://ec.europa.eu/info/food-farming-fisheries/farming/organic-farming/organics-glance\\_en](https://ec.europa.eu/info/food-farming-fisheries/farming/organic-farming/organics-glance_en)) including its tool box with promotional materials which is the property of the European Commission can be used free of charge for promoting organic food and farming in the European Union provided that the terms of use are respected and the source of materials is acknowledged. However note that none of the marketing material may be used to promote brands (whether organic or not) or anything not related to organic food and farming.

Yours faithfully,

Nathalie SAUZE- VANDEVYVER
