

IFOAM EU meets business – Food companies

30 October 2018, Brussels, location TBC

Description of the event:

IFOAM EU and its Interest Group of Organic Processors and traders (IGOP) work on a variety of issues impacting their work, with the aim of shaping strategies and policies that advance the organic sector. This meeting will be an opportunity for IFOAM EU, IGOP and food companies to discuss relevant topics in the organic sector, to share information and exchange on best practices, to understand each other's perspectives and most importantly to debate and shape the direction to take in the next working period.

The morning session will be an information sharing session where participants will present their organisations and interests and be introduced to the work of IFOAM EU and IGOP. This session will be followed by a plenary on residues and contaminants.

The afternoon will be organised in the form of workshops (open space), where participants will be able to attend all workshops. The workshops will be briefly introduced, and the topics – which are regularly touched upon within IGOP – will subsequently be discussed in depth in order to share information and best practices, to raise the issues currently faced, and to develop a strategy and a way forward.

- Workshop 1: **Trade: import, export, and Brexit**
- Workshop 2: **Quality assurance, Traceability, raw material availability, and fraud: measures to take and systems available**
- Workshop 3: **Market development: how to reach 50% organic?**

A participation fee will be required: Dinner the day before (29/10): 40€; Participation at the event on 30/10 (including lunch and coffee breaks): 100€.
